

aVg Digital Vignettes on how to **CELEBRATE reLIFE** developed by **OakAdventures.com**

Being new creatures through faith, these teachings will help you learn to **LOVE LIKE GOD!**

Purpose of the CELEBRATE reLIFE series is to help believers get “unstuck” in their relationship with God with the specific intention to help believers look at scriptures with “fresh” eyes from the point of view of the Unconditional Love of God and the Unfathomable Grace of God as demonstrated in every recorded event in Jesus life consummated by His extreme death on the cross. Just as marital honeymoon experiences are the height of human ecstasy and euphoria, so much more can be the feeling of spiritual ecstasy and euphoria. All things on earth are but a shadow of the spiritual world. So if we will receive the fullness of God’s love and forgiveness that was intended for us (Jesus ACTUALLY DID pay it ALL), we can experience the same love, joy and constant peace that Jesus talked about in Matthew regardless of our particular circumstances or as the Apostle Paul stated that in all things he was content.

The aVg Digital Vignettes of the CELEBRATE reLIFE series are prepared by topic. They are formatted in the sequence of:

Title slide(s)

Pre-video question slide(s) for consideration (while watching)

Video clips slide(s) depicting examples of the topic being studied

Post-video question slide(s) to facilitate discussion (if it does not erupt from the video played)

Summary slide(s) with suggested “take aways” (if these do not surface spontaneously)

More complex aVg Digital Vignettes include two video-clip sandwiches (Pre-Video-Post) the top slice of which will evoke emotions to reveal genuine reactions to real life situations, the bottom slice of which will challenge participants to honest introspection regarding how they might react more like Jesus in such a challenging situation, or more accurately, let Christ live Himself through the individual believer, as it were “manifest in the flesh in us - Gal. 2:20.

No leader guides are necessary, but the content of the question slides can be printed and used as guides for table discussion in smaller groups. We believe the larger group interaction produces better teaching as the collective expression of the real-life experiences of victory in Christ (or failure), with restoration in Grace bringing mutual encouragement and healing, through authenticity and discovery of how the love of Christ interacts in a relevant manner, in the lives of His followers, so as to promote deeper intimacy with God.

The advantage of the Keynote format is the ability to “air drop” a copy of any “digital vignette” to any iPadPro or iPhone or other iDevice running iOS 10 or higher with 32GB of memory or more. The CELEBRATE reLIFE series consists of nearly 200 vignettes which reveal over 400 perceptions of God which are Biblically sound but rarely taught. These programs can accommodate monthly, semi-monthly, biweekly, weekly or any other meeting frequency. They can be grouped into mini-series. Or each lesson can stand on its own to facilitate impromptu presentations in small gatherings based on spontaneous expressions of need by its members.

“Carpe Momentum cum Affectione” == “Seize the Moment with Love”
