

In order to saturate yourself in the messages of these media files, you can copy the "... DIVINE MARINADE for the soul ..." folder onto a 2GB USB Flash Drive and then insert your flash drive into the USB slot in a recent vintage automobile and let the contents play as you drive. We call it "INTIMACY on the HIGHWAY."

The aVg Digital CELEBRATE reLIFE USB wafer contains a folder for your personal use. The folder is named "My Life's Highlights" and can contain nearly 7GB of your own collection. We strongly recommend that you begin to add your best "God Moments" to this space. Then you can pass along to your heirs and friends your testimonies of the goodness of God.

IF YOU REALLY WANT TO GLEAN THE BEST from the aVg Digital USB wafer consider this

1 - The thing which hinders most of us from having a deeply personal relationship with God is our pride. "God resists the proud, but gives grace to the humble." To that end we suggest Suggest two things:

- 1 - when listening to the messages and songs, cast yourself as the "villain" asking God to reveal the dark truths about yourself
- 2 - apply the litmus test of motive to what God reveals to you
- 2 - We usually think that we are doing things for others, for their benefit, while we are actually doing things for others with an underlying selfish motive

LITMUS TEST OF MOTIVE:

When you are tempted to pat yourself on the back or give yourself kudos for what you have done, ask yourself this: Is there any trace of a spirit of selfishness in this activity or expression? The best way to reveal selfishness is to use the three temptations of Jesus by Satan. There are only three primary temptations in all of life:

| Self Indulgence | Self Promotion | Self Worship/Service |
|---|----------------|----------------------|
| The spotlights which reveal where these are present in your current expression of kindness are: | | |
| "give me" | "see me" | "serve me" |

If I am doing anything in order to get something, or doing it to be applauded, or doing it in order to be recognized as a leader and followed by others, then my motive is about me (selfish) not about you (selfless). This is the primary goal of a disciple, to obey Jesus' only command, "Love one another as I have loved you." His love was purely and utterly selfless toward us. He loved all of us without conditions and constantly lavishes kindness on us while we do not deserve it.

The contents of this entire volume "aVg Digital CELEBRATE reLIFE" have been assembled for you to help you develop a deeper, richer and fuller genuine love for God such that His unconditional love reaches out of your being to draw all persons around you to Him.

Play these contents often or seldom. But play them some. We are confident that your love for God WILL BECOME as natural as your love for your most significant other and AS NATURAL AND FREQUENT AS BREATHING!

Remember this also as you explore the contents of this "aVg Digital CELEBRATE reLIFE" USB wafer and as you ponder your own life relative to what you see and hear:

EXPECTATIONS are RESENTMENTS waiting to happen. When your expectations are not met, you are most likely to get angry and judgmental toward those who fail to meet them. "God is never disillusioned with you because He never had any delusions about you in the first place."

NOTE: * * *. In order to play all of the video clips on this flash drive, you may need to download and install PRISM VIDEO FILE CONVERTER - FREE from NCH Software. There is a version for Microsoft and MAC and iDevices. * * *
