Bible Discoveries: The Old Testament

These Discovery Sheets were designed to help you explore Scripture on your own and draw some conclusions from that exploration.

They were designed for small-group activities, where 4-6 people could do them together and benefit from what others might already know, but they can be done individually or in larger groups if you prefer. Doing them will give you a greater confidence in your ability to explore the Scriptures and get further background on important aspects of the story.

Please don't take these too seriously, or get frustrated in trying to find the "right answer." That's not their purpose. They are meant to be fun and simply help people realize that they can read various sections of Scripture and see them as part of a larger story.

They were designed to be completed in 10-15 minutes of quick reading and discussion. A few may take a bit longer, but not much. If you're in a group see what kind of discussion about particular issues or the Scriptures themselves will arise from these discoveries.
